

# Persona One

Project:  
Automated driving so Jenna can have minimal focus on the road while staying professional on the job. Making deliveries on time, following road rules and safety regulations.

JENNA

## BIO

Jenna studies full-time as a first year student at AUT. She loves playing online games and socializing on Twitch.TV and discord groups with friends. She is in a long distance relationship with her boyfriend that she calls often daily.

She's on her **restricted** NZ drivers license. She recently started working part-time at Domino's as a delivery driver and works 6pm - 10pm. Balancing work and study she doesn't have much time to catch up with her friends and her partner so she is often on the phone making calls during work.

## ABOUT

Gender: Female  
Age: 19

## OCCUPATION

Student at AUT  
Part-time Domino's  
Delivery Driver

## GOALS

- Be able to have phone calls with friends or partner while driving.
- Driving assistance to monitor speed through cruise control.

## FRUSTRATIONS

- Doesn't have time to socialize.
- Often speeding on the job to make deliveries faster.
- As a new driver, often not following road rules and safety regulations.
- Can't engage in phone calls while distracted.
