

Persona Three

Project:
Fully automatic driving so Kelvin isn't a hazard and can visit his family and events.
Interface must be accustomed to suit elder user including readability and guidance to using the technology.

KELVIN

ABOUT

Gender: Male
Age: 87

OCCUPATION

Retired

BIO

Kelvin is a retired elder with many grandchildren that live around the country. Kelvin drives often to attend church every sunday, special occasions such as birthdays, and weekly visits to family members.

His day to day can be lonely and uneventful as he lives alone, his partner passed peacefully a few years ago. To battle with loneliness and boredom he tries to fill his week with trips and events but feels restricted from his old age, upcoming health concerns, and restricted mobility.

GOALS

- To visit family and friends that live further away
- Drive to events such as church, birthdays, and special occasions.
- Doesn't want to feel a hazard on the road, putting himself and others in danger from his fragile age and unpredictable health issues.

FRUSTRATIONS

- Warned by family members and friends about driving with his old age.
- Feels lonely being away from people.
